

## Ceramic Fibre Textile

### Technical Characteristics:

- \* Excellent high temperature stability
- \* Excellent tensile strength
- \* Excellent thermal electrical insulation
- \* Excellent chemical stability
- \* Low thermal conductivity

Classification Temp °C	1260						
Product Name	Cloth	Tape	Braided	Twisted	Square	Yarn	Twisted Rope
			Rope	Rope (yarn)	Rope		(wicker)
Product Code	208A	208B	208C	208D	208E	208H	208G
Density (kg/m3)	500						
Organic Content (%)	<15						
Standard Size of Products	2mm,3mm x 1m wide x 30m roll	2mm, 3mm x 50,75,100mm wide x 30m roll	Dia 15mm;  Dia 20mm;		6mm - 25mm	525x2Tex	Dia 20mm
Quality Control System	ISO 9001 - 2000, ISO 14001 - 1996						

### Application Range:

- \* Insulation of high temperature tubes, containers, etc
- \* Industrial furnace curtains and door seals
- \* Fire blankets
- \* Fireproof twine, wrap, cover, etc
- \* For producing compound materials

\* All data represents typical results of standard tests conducted under controlled conditions. As such, the information is intended only as a general guide for specifications and design estimates.
