

Ceramic Fibre Paper

Technical Characteristics:

- * Low thermal conductivity
- * Low heat storage
- * Excellent electrical & sound insulation
- * Flexible & tear resistant
- * High tensile strength
- * Thermal shock resistance
- * Excellent chemical stability

Classification	1260
Temp °C	
Product Name	Ceramic Fibre Paper
Density (kg/m3)	200
Organic Content (%)	≤ 9
Moisture Content (%)	≤ 1
Tensile Strength (Mpa)	≥ 0.3
Shrinkage On Heating (%)	1000 C X 24h ≤ 3
Standard Size of Products	1mm x 1220mm (610mm) x 40m 2mm x 1220mm (610mm) x 30m 3mm x 1220mm (610mm) x 20m 4mm x 1220mm (610mm) x 10m 5mm x 1220mm (610mm) x 10m
Packaging	Carton
Quality & Environment Control System	ISO 9001 - 2000, ISO 14001 - 1996

Application Range:

- * High temperature insulating, sealing & protecting material for industry
- * Electrical and thermal insulation for the electrical industry
- * Insulation for instrument equipment
- * Insulating material for the motor industry
